

# Does your dog need **Rejensa**®?

Dogs may show signs of developing joint pain or joint-related issues throughout their lives. Start giving your dog **Rejensa** joint care chews daily before you notice he or she:

- Doesn't exhibit puppy playfulness anymore
- Looks at the stairs and thinks, "nope"
- Can't be bothered jumping onto the bed
- Doesn't leap into the car like he or she used to
- Has lost interest in running, fetching and tug of war
- Prefers long naps to long walks

Give your dog the joint support and care he or she needs with once-a-day **Rejensa** chews.

See the difference in your dog in as little as 16 days.\*

Ask your veterinarian about **Rejensa** or visit [rejensa.com](http://rejensa.com).

Rejensa®

# A leap in joint care science.

Rejensa® Daily Joint Care Chews

# Try Rejensa®.

A breakthrough joint care chew for dogs.

**Rejensa** is the only joint care supplement chew for dogs that contains Gluco Blu® (N-butyryl glucosamine), an improved form of glucosamine that really works.

### See the difference in as little as 16 days.\*

In a recent study, dogs given **Rejensa** showed significantly **improved quality of life**, while those given a leading glucosamine product did not.\*

Dogs given **Rejensa** improved significantly on a number of mobility measures, including:

- Climbing stairs
- Jumping up and down
- Walking and running
- Jumping over low obstacles
- General activity

It's the daily joint care chew that makes a difference.

Clinically proven Rejensa® with Gluco Blu® is a chew dogs love. Giving your dog **Rejensa** every day **can help maintain healthy joints and active movement.**

Dog weight	Number of chews per day	Days given	
		30-chew jar	60-chew jar
Up to 29 lbs	½	60 Days	120 Days
30 to 59 lbs	1	30 Days	60 Days
60 to 89 lbs	1½	20 Days	40 Days
90 to 120 lbs	2	15 Days	30 Days

**Rejensa** can be given anytime and used in conjunction with prescribed joint medications or as a stand-alone supplement for joint health.
